Dear Society,

As you have no doubt noticed we have a new editor of Kim Kollecting. I hope you will be patient with me as I try to live up to past editions and of course their editors.

Rebecca Brown had to retire as editor because of health problems and we will certainly miss her expertise. She did a wonderful job for many years and will be sorely missed by all. I will try to live up to her standards but I have no near the experience that she brought to the job. I hope you the readers will understand that I'm just learning how to do this and will probably make many mistakes before I'm done.

It is my hope that each edition will get better and better, but this won't happen without your help. I am in desperate need of material for the quarterly if you have anything that you think would be of interest to others please send it to me or to the Society and it will get to me. Thanks again for your patience

John Withers, Jr.

John Withers, Jr.

+Born April 21, 1784 at Charlestown, South Carolina
-Died October 13, 1860 in Ashley County, Arkansas. Buried in Prairie Chapel Cemetery,
Married Mary Robinson Bowen on June 5, 1804. Born July 8, 1790 at Goose Creek -Died February 6, 1872 in Ashley County, Arkansas. Buried in Prairie Chapel Cemetery.

From Marriage Notices in Charleston Courier, page 12, by Salley Married on the 5th instant, by the Reverend John Thompson in St. Phillip's Parish, Mr. John Withers, Jr., to Miss Mary Bowen, only daughter of John Bowen, Esquire of Goose Creek, Planter, printed on Thursday, June 7, 1804.

Thus, from this notice and the above genealogy of John Bowen the two younger Withers children, Rebecca and John, married brother and sisters in the Bowen family, Mary Robinson and John, less than two months apart.

As this genealogy concerns those who are linear descendants of John Withers, Jr., and his wife, Mary Robinson Bowen Withers, we will carry their generations as far forward as information has become available to the compilers.

But first there must be made here a few general statements about this family. A sort of summing up. With the passing of over two centuries it is difficult to sort out family relationships, even the exact locations of where the family lived.

It is apparent, however, that the family owned land around Charleston and in the area around Georgetown, some 60 miles to the north on the coast. It is apparent that John and Richard Withers moved into that area. William owned land there but held the ancestral homelace of "Mt. Pleasant" and even though his son John, the war veteran of which much is known owned land there also, he retained his home around Charlestown.

There are two enigma which perhaps will never be answered. Soon after his marriage why did John Withers, Junior leave Charleston for Columbia, South Carolina.

It is true Columbia had just become the capitol in 1786, and to that city John Withers moved in 1811. As the only son of an illustrious and wealthy father it would seem ill-advised for him to forsake the land which his father owned and which most certainly would pass to him on his fathers demise, to become a store-tender in a new and uncertain city in central South Carolina. This is the first of our enigmas. Later he moved to Lee's Ferry between Columbia and Augusta.

The following is from a dedication to a book published in 1889, "Behold the Lamb of God" by a son of John Withers, Jr., his youngest, H.R. Withers, D.C.. We will write much of H.R. Withers in later pages of this history, but for the moment he tells us in prose better than most of his parents early life in South Carolina.

"This book is lovingly dedicated to the memory of my sainted father and mother, Reverend John Withers, Jr., and Mary Bowen Withers, who were born, and brought up in the city of Charles-town.

Trained from infancy in the ritualistic faith of the Protestant Episcopal Church, they maintained a beautiful exterior of the gospel until a Methodist preacher whom they heard for the purpose of ridiculing, thrust a divine lance into their hearts.

They became Methodist. They erected an altar of prayer in the family of twelve children. There is no incident of memory I cherish so highly as those venerable forms in song and prayer before the family altar. I seem to hear it now, and see them bowed in the midst of a group of loving obedient children. Their songs have ceased now. Their prayers are hushed. Long years ago, while this writer was absent trying to preach, their lights burned low to the flickering taper and gently went out in the shade of death in old and honored age.

In southern, Arkansas, under modest shafts of marble, side by side, they sleep. Many children and grandchildren nestle in their arms in the shaded plot. It is a silent spot, a familygrave-yard. Tall pines stand sentry on the out-skirts of the little garden.

They sing a low, sad strain that harmonizes with the joyful sorrows I feel when standing or playing among these tombs. They sleep now and rest from their labors but their works do follow them.

Next to Jesus I am most indebted to my parents for my soul's peace--which I now enjoy in the holy baptism of the new and ever living covenant." s

As noted above, the John Withers couple had moved to Columbia, South Carolina where he became a merchant. Bishop Francis Asbury, "The Father-of American Methodism" 1785-1816 reveals his prodigious preaching in the irregular, the scornful, the indifferent and an increasing number of faithful followers it is not without reason to believe that it was Francis Asbury who led John Withers and his wife into the Methodist church.

John Withers, Jr., was ordained, as a minister in the Methodist Episcopal Church, South. The editor of this history has had the early roster or 'the South Carolina Conference checked for charges held by Reverend. John Withers, Jr., but Mr. Herbert Hicks, Jr., Curator of the Conference's historical Society located at Wofford College Library in Spartanburg reports that he is unable to locate any charges held by Reverend. Withers. Had Clark Circuit in Monroe County, Ala. about 1840.

But through a long life, he served in South Carolina, Florida, Alabama and Arkansas as a local Methodist minister, perhaps not holding a license of the Methodist church but valuable, non-the-less to communities in which he lived, and served,

It must be noted that two of his sons (another studied for the ministry but did not follow it), three grandsons and two great-grandsons have become ministers, of the Gospel, in the Methodist Church."

The family lived at Columbia from about 1811 until about 1835 to move to Chipley in Washington County, Florida. Then about 1839 part of the family, Julia Ann Withers, with her husband, John Cook, Downey Sr., and Richard Francis Withers, moved to Monroe County, Alabama to remain until the fall of 1847 when the family was again reunited to move together to south Arkansas.

In 1843 Reverend John. Withers, Jr., moved to Drew County, to settle on what is now the Peter Downey place, between. Prairie Chapel Methodist Church (in a sad state of repair) and the Withers cemetery now called Prairie Chapel cemetery on the Saline river at Longview.

Ashley county was created by Act of November 30, 1848 from a part of Drew county and was named for Chester Ashley, United State Senator from Arkansas, whose death had occurred in April just before the new country was established

County and circuit court were held at the house of Isaac Denson near Fountain Hill in the northern part of the county until 1849. A new site was selected nearer the center of the county and the town of

Hamburg was formed,

The area around Longview is on the narrow 'border of Drew and Ashley county. It is difficult to tell where the one ends and the other begins. The French first settled at Longview; on a tiny trace between Arkansas Post Monroe, down in Louisiana. The Fogles and the Julockets claim to have settled there about 1768,

In 1846, Captain Phillip Darden came from Virginia and located at Longview, brought in a supply of mercantile good; bought furs and hides from the hunters and trappers and furnished general store goods for the few pioneer settlers. He erected a log warehouse on the banks of the Saline with a log cabin nearby.

In the early fifties, Captain Darden married a lady from Portland and erected a fine store with living quarters upstairs and a big warehouse-- again on the banks of the Saline.

Longview is now an old deserted place--a memorial marker recently' place by the Daughters of the American Revolution is the only mark of what was once its departed glory. The ferry is now gone, replaced by a new bridge.

This then is the, second enigma. Why did he again move his family these final two times? From a bustling new city, Columbia, South Carolina, newly named the state capitol. He went into the wilds of west Florida, then into Alabama, through Mississippi and finally into the swampy bottoms of the Saline river in south Arkansas where the only dependable transportation was by keel boat and later steam boats and. the only livelihood, cotton, on uncleared land on which to plant and that subject to much flooding, We perhaps shall never know the answer to this riddle that compelled, him to seek the far horizon.

The 1790 Census¹, Prince George Parish, Georgetown District reads; John Withers, Jr. 1 male, 1 female, 22 slaves.

The 1800 Census, All Saints Parish, Waccamaw District reads: John Withers, 1 male-- between 25-45 1 female between 10-15; 1 female between 15-25 and 1 female between 25-45. 41 slaves.

The 1820 Lexington County South Carolina census reads
 John Withers Jr., 2 males under 10; 1 male 26-45; 3 females
 Under 10; 1 female 10-16; 1 female 26-45; 5 persons of family
 engaged in agriculture and 14 slaves.

The 1850 census, Drew County, Arkansas (the first to list names
 of all persons residing in each residence) is as follows:
 John Withers, 66 born in south Carolina; Mary B., 60, born in
 South Carolina; Eliza C., 30, born in South Carolina; Francis B.
 20, born in Florida; and Harleston R., 16 born in Florida. They were in
 Veasey Township.

The 1860 census, Drew County, Arkansas reads:
 John Withers, 77, farmer, Born in South Carolina; Mary B, 70
 Born in South Carolina; Eliza , 45, born, Born in South Carolina;
 Samuel D. Doyle, 42, born in South Carolina; Oscar Doyle, 22,
 Engineer, born in Florida. The latter is a grandson of the old couple by
 daughter Sarah Capers Withers. The other, Samuel D. Doyle is
 perhaps his fathers' brother.

The 1870 census, Drew County, Arkansas reads:
 Mary B. Withers, 85, born in South Carolina; Eliza Withers
 13, born in Arkansas and Phillip Withers, 11, born in
 Arkansas

We are able to identify the two children, both
 grandchildren, as being children of Richard and Dora
 Lambert Withers. Perhaps they were on a visit for their
 their parents still lived as will be recorded
 elsewhere. At any rate, the census taker counted them
 here and also at the parents home.

Murphy's law of Genealogy

- When at last you have solved the mystery of the skeleton in the closet the tight-lipped spinster aunt claimed, "I could have told you that all the time."
- You never asked your father about his family because you weren't interested in genealogy while he was alive.
- The family story your grandmother wrote for the family never got past the typist. She packed it away "somewhere" and promised to send you a copy, but never did.

The following is copied from an original printed, copy owned by Mrs. Evora Downey Bird of Monticello, Arkansas»

"Another father of Israel's tribe has bid farewell to the shores of time and, crossed the Jordan, to inherit the glories of a promised. Canaan.

The Rev. John Withers died on the 28th of October, 1860 In. the 78th year of his age; he was born . In South Carolina in 1782. In 1802 he was married to Mary Bowen of Charleston, and after a short time they moved to Columbia, where they both professed religion and. joined the M. E. Church. Not long after, Father Withers felt divinely impressed to the gospel work.

He was accordingly licensed to preach by Brother Owen, and served the church as a local preacher; was ordained deacon and elder by Bishop Soule. His house was the home of all itinerant preachers.

He removed from Columbia to the Lee's Ferry Crossroads, on the halfway ground between Columbia and Augusta, Georgia, where he did great and good in preaching and administering the Sacraments of the Church. There are numbers yet alive in Lexington District who hold father Withers in lasting remembrance. In 1834 he migrated to Holmes Valley, Florida, where he was called upon to do service with carnal, as well as spiritual weapons.

Several times while there he led a small volunteer company in the forest to defend his; country from the atrocious outrages of the Indian* Where nothing but devastation was seen and felt and from thence he moved to Quincy, Gadsen county and embarked in the business of keeping public house, and in a great measure destroyed his usefulness to the church by not preaching as often as often had done before.

The hand of God seemed to be against him for he there lost nearly all his property. In 1840 he immigrated to South Alabama and. was employed by the presiding elder to take charge of the Clark Circuit and for years, while in that section of the world, he was called on to fill vacancies in the church. The remembrance of this veteran of Christ Cross, in the minds of thousand will be as durable as memory itself. For he was instrumental, under God's directions, in bringing many souls to the light of Christianity.

In 1848 he removed, to Drew County, Arkansas where he was again employed by the presiding elder to fill vacancies in the .church. Where ever this servant of God would go, Abraham like, he would first erect an Alter to God, morning and evening he would gather his household. around and offer sacrifices to God for the many favors bestowed on them all.

on earth. He kept up appointments for preaching until a short time before his **decease**, and truly did he feel in his, expiring moments, that it is not the whole of life to live, nor all of death to die. And when interrogated as to his feelings or fears of dissolving nature, he spoke as David of old, that he feared no danger, for the Lord was his Keeper.

Long and peacefully together did he and his wife live on the earth. They blessed, their children and grandchildren, and father withers in administering the ordinances of the church, performed the Sacrament of. Baptism on his great grand children. His aged wife is left lingering on" the shores of time, still to battle with the cares and responsibilities of life; but the wrinkled brow, the furrowed cheek and faltering step, alas, speak to us that .she too must soon bid us all .farewell.

If it were possible, we should pray for such, we would wish' her to remain with us until time should cease with us all. She is anxiously awaiting the kind release from earth to join her husband, children, and grandchildren, with angels and Christ in the Kingdom, of God above. May the fostering grace of God keep the remaining part of the family secure from sin on earth, and save them all in heaven.

SALINE RIVER

The Saline River has its origin in the foothills of the Ozark Mountains and makes it way to the Ouachita River. The river is some 204 miles long. It is like so many rivers eventually flowing into the Mississippi by way of the Ouachita, Red, Black and emptying into the Atchaflyi Basin.

The Saline is the primary reason that Longview was established in northwest Ashley County. It was only navigable in the higher water seasons. There are reports of the steamboats going up the river as far as Ozment's Bluff near Monticello. Also there is an existing structure in the river near Warren that either supported a bridge or may have been used for equipment to lift logs from the river.

A gravel bottom exists in the bottom of the Saline for its entire length. It can be seen during the summer and fall when the water is at a low level. There are sand bars and shoals every several miles along the river standing the between deep pools of the slow moving river. This changes once the water rises from heavy rains and the current becomes stronger taking everything that is floating with it. Large trees that have fallen into the river with their roots intact can be seen moving at a high speed only to be caught in a drift at some bend in the river. I have seen large pieces of ice floating in the river.

It is also a spring fed river to some degree.

Most Saline River kids can remember standing in the river in the summer and feeling the cool water flowing on their bare feet. It is thought by some that the many springs provide the fresh water to produce the flavorful fish that can only be found in the Saline River.

It was a practice of the families in the County to camp out at their favorite places on the river when the crops were laid by in the summer and a much deserved break was taken. Longview was one of these favorite camping places for many. Even the Confederate veterans would do an annual camp out each year at Longview. In the Longview area Horsehead, Keyhole, Gee's Landing and Dripping Springs were some of these favorite camp grounds.

Float trips on the Saline are the ultimate experience for those who go well prepared. I did this many times when my son, Bill Deckelman was growing up. Jack Allen planned our first trip during a Labor Day weekend and following that we floated each year. Sometimes we floated from Warren down to Longview and the other trip was from Longview down to the Ouachita River. We used tents for shelter and cooked with charcoal and Coleman stoves. As we traveled along the more remote parts of the river I think that we got a glimpse of scenes that were the same that those pioneers of Longview saw in that long ago. The large Cypress, Oak, Pecan, and Willow trees lined the high banks of that clear flowing stream. An otters mudslide made its way down the bank. A blue heron made a successful dip for a

fish and at night an owl hooted from a tree limb that sounded like it was over your tent On the last float trip that we made there over 20 people in the group.

If you thought the Federal Population Census Schedules were the extent of the census information available - think again. There is a lot more information out there to be discovered - you just have to hunt a little harder for it. And unfortunately, most of it is not indexed. However, the different Federal schedules roughly follow the order of the Population schedule so it is not usually too difficult to find the person you are seeking. Most of the Mortality Schedules have been indexed, but read the Mortality paragraph for the big caveat. Some State censuses have been indexed. But mostly, you're on your own. Oh, but what good fortune when you find who you're looking for. The information can be very revealing.

AGRICULTURAL SCHEDULE

The Agricultural Schedule to the Federal census was taken in 1850, 1860, 1870 and 1880. This schedule affect more people than any other, as we were an agrarian society and most of our ancestors and their families lived on farms. The information contained on these schedules regarding the farming operation is very detailed and definitely worth your time to see if you can find your family. These schedules were not just for land owners - they included those who rented the land or were overseers. They listed the acreage and how its use was divided, livestock owned, and the different crops grown. These schedules, more than any other, let you look through a window into the past and see what your ancestors were doing in their daily lives. I encourage you to make the effort to use these schedules.

The questions asked on the 1850, 1860 and 1870 are the same: Name of Owner, Agent or Manager of the Farm; Acres of Land; Improved/Unimproved; Cash Value of Farm; Value of farming implements and machinery; Horses; Asses and Mules; Milk Cows; Working Oxen; Other Cattle; Sheep; Swine; Value of Live Stock; bushels of Wheat; Bushels of Rye; Bushels of Indian Corn; Bushels of Oats; Lbs. of Rice; Lbs. of Tobacco; of 400 lbs. each Ginned

Cotton; Lbs. of Wool; Bushels of Peas & Beans; Bushels of Irish Potatoes; Bushels of Sweet Potatoes; Bushels of Barley; Bushels of Buckwheat; Value of Orchard Products in dollars; gallons of Wine; Value of Produce of Market Gardens; Lbs. of Butter, Lbs. of Cheese; Tons of Hay; Bushels of Clover Seed; Bushels of Other Grass Seeds; Lbs. of Hops; Tons of Dew Rotted Hemp; Tons of Water Rotted Hemp; Lbs. of Flax; Bushels of Flaxseed; Lbs. of Silk Cocoons; Lbs. of Maple Sugar; Hhds. of 1,000 lbs. Cane Sugar; Gallons of Molasses; Lbs. of Beeswax and Honey; Value of Homemade Manufactures; Value of Animals Slaughtered.

The 1880 schedule asks even more detailed questions. Name of person who conducts the farm and whether owner or not; Rents for fixed money rental; Rents for shares of products; Breaks down the use of acreage into more categories; Cost of building and repairing fences; Cost of fertilizers purchased in 1879; Amount paid for farm labor; Estimated value of all farm production sold, consumed, or on hand for 1879; No. Calves dropped; No. Cattle purchased, sold, slaughtered; No. Cattle died, strayed and stolen and not recovered; Gallons of milk sold; No. Sheep on hand, purchased, sold, slaughtered, killed by dogs, died of disease, died of stress of weather; No. Lambs dropped; No. Barnyard and other poultry; Doz. Eggs produced; Amount of wood cut by cords; Value of all forest products sold or consumed in 1879. AH of the other questions were the same as before.

MANUFACTURER'S SCHEDULE

The first Manufacturer's Schedule to the Federal census was taken in 1820. It was also called Products of Industry. This schedule listed the individuals and companies that were engaged in producing a product for profit, usually in excess of \$500.00 valuation per year. You may be surprised at the persons you will find on these schedules and the information about their "business." There are blacksmiths, tanners, millers, saddlers, cabinet makers, shoe & boot makers, wheelwrights, wagon makers, gunners, etc.

The questions on the 1850 and 1860 schedules are

the same: Name of corporation, company, or individual, producing articles to the annual value of \$500.00; Name of business, manufacture, or product; Capital invested in real and personal estate in the business; Raw material used, including fuel; quantities, kinds, values; Kind of motive power, machinery, structure of resource; Average number of hands employed; Male, Female; Wages, average monthly cost; Annual product:

quantities, kinds, values. The 1870 breaks down the Average number of hands employed to: Males above 16 years, Females above 15 years, and Children and Youth. Also under Motive Power it asks: Kind of Power (steam, water, wind, horse or hand); and if steam or water, no. of horsepower. The 1880 is similar to the 1870, but has several categories for Wages and Hours of Labor, for Months in Operation, and for Power used in Manufacture.

There are also Special Manufacturing Schedules for certain types of businesses, such as: Boots and Saddles; Leather (Tanned and Curried); Flour and Grist Mills; Cheese, Butter, and Condensed Milk Factories; Lumber and Saw Mills; Brick Yards and Tile Works.

THE DEFECTIVE, DEPENDENT, AND DELINQUENT CENSUS SCHEDULE OF 1880

This schedule of the Federal census was only taken in the year 1880. It was apparently in response to the health and social reform movements that were awakening the social consciousness of the nation, and allowed the government to gather information to better understand and address the needs in these areas.

The individuals listed on these schedules will also be found on the regular population schedules, but with limited information as to their situation. Many times inmates of a public institution were removed from the family unit and often from the counties, or even states, in which their families resided. Common names and closed or lost records make it difficult or impossible to identify such individuals with certainty. However, the ODD schedules call for a listing of the city, county, and state that was considered to be each inmate's "home."

They also ask for other family and health or condition-related information.

These schedules can often-times help locate a "lost" family member - one that perhaps you thought had died, as they just "disappeared" from the family. Or maybe they disappeared for a period of time and suddenly re-appeared. The information on these schedules might also provide valuable medical information for your family medical history.

There are seven of these supplemental schedules in the ODD schedule: Insane Inhabitants, Idiots, Deaf-Mutes, Blind, Homeless Children, Inhabitants in Prison, and Pauper and Indigent. Each has its own set of questions. These schedules are not easy to find, as they were not reproduced and widely distributed as the population schedules were. We purchased those that were available from Heritage Quest as we thought they would be a valuable addition to our census collection.

Listed below are the questions asked on these seven schedules.

MORTALITY SCHEDULES

This schedule of the Federal census was taken in 1850, 1860, 1870 and 1880, and was supposed to list all persons who had died in the previous year, namely from June 1 st to June 1 st A number of these have survived and many of them have been abstracted and published in collections.. However, as in most things, it is always good to view the original records. Not only can transcription errors occur, but that is the only way to make sure all of the information was included. Such is the case of the 1850 Virginia Mortality schedule. We have the printed copy in the library, but when compared to the original microfilm, it was discovered that an important portion of the record was excluded from the printed copy. Two of the questions asked are "color," and "free or slave." It appears that the

individuals listed as • free black," included, but those who were marked as "slave." were not. These individuals were listed by first and last name - apparently their first name and the surname of the slave owner. This is an incredibly important document, as the Slave Census rarely lists the slaves by name, only by age and sex You would discover this only by reading the original document. The questions listed on the 1850 and 1860 Mortality Schedule are: Name of those who died between June 1, 1849 and June 1, 1850, and June 1, 1859 and June 1, 1860, and whose abode at the time of death was in his family; Age; Sex; Color, Free or Slave; Married or Widowed; Place of Birth; Month Died; Profession, Occupation or Trade; Disease or Cause of Death; # of Days 1 1 1 .

SLAVE SCHEDULES

The Slave Schedules were taken in the southern states for the years 1850 and 1860. They list the slave owner and the individual slaves owned, but usually only by sex and age. A complete set of these schedules are located at the Oklahoma Historical Society.

STATE AND-TERRITORIAL CENSUS

State and Territorial censuses were taken at various times and for various reasons. Some were taken to determine if there was enough population to apply for statehood. The Federal government took Territorial census for Minnesota, Arizona, Colorado, Dakota, Florida, Nebraska, New Mexico and Kansas. Several states such as Illinois and Kansas took a census on the "5" years (1855, 1865, etc). Missouri took a state census in 1876. Iowa took several censuses in the 1850's. Some of these list by head of household, but most list every name in the household with varying additional information. Even though they may be hard to access, they are worth the time to try to find them, as they may hold the key to the puzzle you are trying to put together.

- John, son of Thomas, the immigrant whom your relatives claim as immigrant ancestor, died on board ship at the age of twelve.
- The public ceremony in which your distinguished ancestor participated when the platform collapsed turned out to be a hanging.
- Records show that the grandfather, whom the family boasted, "He read the Bible at four years and graduated from college at sixteen," was at the foot of his class.
- Your grandmother's maiden name for which you've searched for years was on an old letter in a box in the attic all the time.

- A good name is more desirable than great riches.
- A great many family trees were started by grafting,
- A great oak is only a little nut that held it's ground.
- A job is nice but it interferes with genealogy.

- A question suppressed may be an Ancestor lost.
- A single fact can spoil a good genealogy.
- A well-written life is as rare as a well-spent one.
- Adam and Eve probably found genealogy a bit boring.

Descendants of Gillis Minor Franklin

This is largely taken from a manuscript submitted by Buck Archer, 1102 W. Bullock, Denison, TX 75020

Gillis Minor Franklin

Child of Gillis Minor Franklin is:

1. Charles Alexander Franklin was born in 1760 in Edgefield, Newberry County, South Carolina, and died 1825 in Gwinnett County, Georgia.

Charles served with the First South Carolina Regiment during the American Revolution. He is listed as a Private from Sep 21, 1776 to December 1776. His DAR # is 465636 through Marie Louise Lepine of Thibodaux, Louisiana. Verified December 15, 1969. Also refer to Nat'l # 398761 belonging to Earlene Honeycutt.

It is thought Charles died after 1790 in Newberry County, South Carolina. However, it appears he may have died in prison.

Family Stories: Charles was working with his father, Gillis Minor Franklin, cutting timber when his father was attacked by a cougar. Young Charles tried to kill the cougar and unfortunately the ax hit his father killing him. He was so upset, he left home and joined the First South Carolina Regiment under General Francis Marion.

According to Charles, he became separated from his company and set upon by three British soldiers on horse back. He managed to kill all three and capture their horses and weapons and returned them back to General Marion. The General lacking in compliments, told him to put the horses where they belonged, the guns where they belonged and for him to get back to

where he belonged! Needless to say...his feelings were hurt!

How he landed in prison is not clear. According to his son, Gillis Minor Franklin II, a man threatened to kill Charlie one day. When Charlie approached the man who was standing on a platform, the man jumped at Charlie and somehow Charlie's powerful forearm caught the man as he was coming down and broke his neck. A trial was held and Charlie was found innocent by self-defense. However, it appears this is the story Gillis wanted everyone to know not that his dad had died in prison. He died less than 6 weeks after entering.

Children of Charles Alexander Franklin are:

A. John Franklin was born Jun 1791 and died December 21, 1868 in Pilot Knob, Washington County, Illinois and was buried in Franklin Cemetery, Washington County, Illinois. He married Susannah (?). She was born 1796 in South Carolina, and died May 19, 1873 in Washington County, Illinois.

Dear Friends

We genealogist are always interested in seeing actual old document forms. When the enclosed (copy) Ashley marriage license was located in my late father-in-laws' home in Oregon I felt it was something I wished to share with you.

The forms date is 1912 but according to the top-heading it had been in use since 1906. Having served as a deputy circuit clerk locally in MS, I know how rare it is to find an actual marriage certificate kept by the couple.

I enclose a bit of history with the document including a photo. You may feel free to display them in any manner you care to.

1- marriage certificate (copy) Ashley Co AR
Sept 1912- photo taken at BearHouse Camp No.
1 on July 23/1925 3-wedding day photo of
couple named in certificate

The name of the couple was, Clayborn Admer Haddock (1889 MS-1961 C A) and Frances "Fannie" Della Howard (1893 AR-7/25/1925)

Fannie was the daughter of Henry Preston Howard and an aunt of the late Dorothy Howard Sawyer (Mrs Bruce Sawyer) of Warren, AR.

I hope some may find this material of interest. Keep up your great work

Mrs. Jerry Haddock)

This is an edited version of her letter the
rest appears with the Bearhouse picture.

The BearHouse Camp photo was made on July 23, 1925 on the occasion of a dual birthday party for Fannie's two sons, who both had July birthdays. The eldest son Preston Lamar Haddock on July 3 and Wayman Jesse on July 23. Her oldest child was Ida Bernice Haddock shown at the center of the table.

The lady at Fannies' side was a close friend or relative, as she and husband appear in several other photos with Fannie & family. Her name might be Clara?

Fannie Haddock died in childbirth two day after this picture was taken.

She and infant Larry Marshall Haddock are buried in Tratalgar Cemetery (it was originally named Sardis) in an unmarked grave located beside the also unmarked grave of a daughter who died of whooping cough at April 22, 1917 (at 4 months of age) named Christine Virginia Haddock.
